

## **The Durant Census of the Ottawa and Chippewa Indians of Michigan. Part 2, Durant Field Notes Index.**

**Larry M. Wyckoff  
2017**

This is part two of a series of six reports on the creation of a census of the Ottawa and Chippewa Indians of Michigan for the payment of a U.S. Court of Claims settlement for claims under the treaties of March 28, 1836 and July 31, 1855. See: *Part 1, The 1870 Payment Roll* for a history of this claim.

This document contains an index of all the names found in Durant's Field Notes. Over twelve thousand names are found in these records. Some names appear on more than one field note. These names were taken from the field notes found in the National Archives Microfilm Series M2039. However, there are over seventy field note pages missing from this series and in some cases the reverse side of the field note was not filmed.

This index also shows the census and payment roll numbers associated with these individuals if they were enrolled on the census and paid. See Part Three of this series for the census roll and Part Five for the payment roll. If names appear on the census and payment rolls and not on any field note; that would imply that that field note is missing.
