

The Durant Census of the Ottawa and Chippewa Indians of Michigan. Part 3, The Durant Census Roll.

**Larry M. Wyckoff
2017**

This is part three of a series of six reports on the creation of a census of the Ottawa and Chippewa Indians of Michigan for the payment of a U.S. Court of Claims settlement for claims under the treaties of March 28, 1836 and July 31, 1855. See: *Part 1, The 1870 Payment Roll* for a history of this claim.

Once agent Horace Durant completed his field notes, containing the descendants of each name on the 1870 payment roll, he created a census roll of all those descendants living on March 4, 1907. The census was completed on October 27, 1909 and was approved by the Secretary of the Interior on February 18, 1910. The census initially contained the names of 7396 individuals. After corrections for double enrollments, the number was reduced to 7384 persons.

The various Ottawa and Chippewa chiefs and headmen protested the inclusion of mixed-bloods on the census roll and those were noted by a red check mark on the roll. Descendants who were enrolled with other tribes, and receiving benefits therefrom, were also noted on the census roll with a blue check mark.¹ See: *Part 6, Reports and Correspondence*, for lists of mixed-blood members by band.

Application for enrollment on this census were also made by 1224 individuals of Ottawa and Chippewa descent residing on Walpole Island, Canada. Those were

¹ This census was transcribed from a black and white microfilm copy so the color of the check marks could not be determined from the microfilm. It can be determined whether the check marks were referring to mixed-bloods or members enrolled with other tribes by reference to the "Remarks" column on the census roll or from the lists of mixed-bloods contained in Part 6 of these reports. This census was transcribed from the National Archives Microfilm Series M2039, Roll 1.

determined to be receiving benefits from the Canadian government and were not enrolled. However, Agent Durant did visit various places in Canada and enrolled some descendants living there.

A transcription of Durant's census roll is shown below, followed by an index of names contained on the roll.
